

EXINORE ER Earphones

SPECIFICALLY INTENDED FOR

- Anyone irritated by poorly fitting earphones
- Music-lovers who want to enjoy music to the full

DOUBLE ENJOYMENT...

Enjoy a concert or event with the EXINORE ER, without impairing your precious hearing. But you still want to enjoy your favorite music undisturbed while traveling, on the beach or relaxing at home?

Now you can - with EXINORE ER earphones. The principle is simple. Just remove the filters from the ER hearing protectors and insert the earphones. The result: a unique product with ditto sound experience.

Standard earphones from an iPod or MP3 player are often uncomfortable and fit poorly. Furthermore, you tend to turn up the volume to eliminate surrounding noise. With the ER earphones, that problem belongs to the past. Because of its perfect fit, the surrounding noise is blocked out. Better for your hearing and supremely comfortable. That's double enjoyment.

COLOUR

EXINORE ER earphones are available in white only.

MATERIAL

The earphones are made of hard material which makes them fit into the ER earpiece optimally.

Note! The ER earphones are delivered without ER hearing protectors.

BENEFITS

- Supremely comfortable
- Fits perfectly into the ER earpiece
- Easy to insert and remove
- Quick and easy to clean
- Surrounding noise is blocked out

SPECIFICATIONS

Below you will find the specifications of the ER earphones.

Scope of frequency	: 25 - 16,000 Hz
